

YIRCoF '11 is a conference in the field of Foresight & Future Studies, to be organised in Istanbul, August 24th-26th, 2011.

Contents

- 1 Conference's Topic
- 2 Plenary Speakers & Invited Sessions
 - ♦ 2.1 Plenary Speakers
 - ♦ 2.2 Special Invited Sessions
 - ◊ 2.2.1 Systemic Foresight
- 3 Organizers
 - ♦ 3.1 Executive Committee
 - ♦ 3.2 Academic Programme Committee
- 4 External Links

Conference's Topic

The organizers describe the conference's topic in the following way:

A review of journals in the field(s) of Foresight and Futures Studies point to a tension in the relationship between Foresight and Futures theory and practice. Whether to treat "Foresight studies" and "Futures studies" as two different fields, or to treat them as one field and write "Foresight and Futures Studies" is probably a matter of debate among the researchers.

The Foresight and Futures Studies field has been criticised by some for the inadequacy of its theory. There is debate on whether the field has progressed beyond an exploratory stage to a point where there is a core set of basic terminology and models, and on whether more emphasis should be given on developing and employing a set of reliable, valid and reproducible methods for conducting research in the field of Foresight and Futures Studies.

Interested individuals from academic (economics, management, political science, engineering) and business worlds are invited to come together to discuss and communicate on challenging problems related to THEORY BUILDING in FORESIGHT and FUTURES STUDIES within the historic and mystic environment of Istanbul.

Plenary Speakers & Invited Sessions

Plenary Speakers

- Z. Sardar, Editor, FUTURES
- S. Inayatullah, Tamkang University (via SKYPE, tbc)
