

This proposal has *failed* to attain consensus within the Foresight Wiki community. A failed proposal is one for which a consensus to accept is not present after a reasonable amount of time, regardless of continuing discussion.

[\[edit\]](#) [\[purge\]](#) [Template documentation](#)

This documentation transcluded from [Template:Failed/doc](#) ([edit](#) | [history](#))

A failed proposal is one for which consensus for acceptance has not developed after a reasonable time period.

Consensus need not be fully opposed; if consensus is neutral or unclear on the issue and unlikely to improve, the proposal has likewise failed.

Usage

`{{Failed}}`

Example

`{{Failed}}`

produces

This proposal has *failed* to attain consensus within the Foresight Wiki community. A failed proposal is one for which a consensus to accept is not present after a reasonable amount of time, regardless of continuing discussion.
