Template:Resize/doc

Template to aid switching the font-size used for a text string.

Syntax

```
\{\{\text{resize} | N | \text{text}\}\}\ or \{\{\text{resize} | \text{text}\}\}\ N specifies a size, such as "90%", "1.2em", etc. For the default case (the second above), N is set to "90%".
```

Examples

```
\label{lem:control_loss} \{\{\text{resize} | 1.2\text{em} | \text{This text is 0.2em larger than normal}\}\}$$ This text is 80% normal size $$ \{\{\text{resize} | \text{This text defaults to 90% normal size}\}\}$$$ This text defaults to 90% normal size $$ ize $$ $$ $$ is 80\% normal size $$ $$ ize $$ $$ is 80\% normal size $$ ize $$ is 80\% normal size $$ ize $$ ixe $$ is 80\% normal size $$ ixe $$ i
```
